EXPERIENCE

Fullstack Web Developer

April 2021 – Present

Kazi Consulting

Waterloo, ON

- Core member of the development team, responsible for overhaul and improvement work on client products
- Have developed **3** web applications, mainly leveraging **React**, **TypeScript**, and **Firebase** as the tech stack, with various custom **REST API** implementations
- On average, the web overhauls I've completed have lead to a **40%** increase in site traffic and interactions

Logistics Analyst

January 2022 – April 2022

Traffic Tech

Mississauga, ON

- Communicated with various companies such as **Walmart**, **Loblaws**, and **Costco** to plan moving of their goods.
- Handled over **\$75,000** of commerce daily.
- Data entry - Imported various data sets into company system using custom written **Python** scripts

Junior Accountant

May 2021 – August 2021

Hawks Management Group

Toronto, ON

- Compiled general ledger entries on short schedule with **100% accuracy**.
- Reviewed financial documents to verify accounting data and mathematical accuracy.
- Assisted with preparation of monthly financial statements.

PROJECTS

Decider | *NextJS, React, TypeScript, Material-UI*

June 2022

- Having trouble deciding on something? You're not alone! Decider is a simple and easy tool that makes your decisions for you!
- Developed using **NextJS**, **React**, and **TypeScript**, this dynamic web app works flawlessly on mobile and web environments
- The front-end was designed with both custom **CSS** components as well as **Material-UI**, specifically leveraging the global theme attributes of this tool
- View This Project [Here](#)

DigiNote | *MongoDB, ExpressJS, ReactJS, NodeJS, JavaScript, Bootstrap*

May 2022

- The one and only replacement you'll ever need for the traditional sticky note!
- Developed using the **MERN** stack and **JavaScript**, this web application allows users to create meaningful notes that are quick and easy to access. Your notes are safe and secure with **JWT auth** and data encoding.
- Leveraged **Bootstrap** in conjunction with custom **CSS** for the overall design and **UI/UX** of this project
- View This Project [Here](#)

WeText | *NodeJS, Express, JavaScript, Socket.io*

April 2022

- Want to make a new friend? Look no further than WeText, a safe and secure real-time global chatroom!
- Developed using **NodeJS**, **Express**, and **JavaScript**, this web application leverages **Web Sockets** for real-time communication.
- Leveraged **Bootstrap** in conjunction with custom **CSS** for the overall design and **UI/UX** of this project
